GLOWING LOGS

Every home has a story. At Sustainable Hearth, we create fireplaces that become its centerpiece, bringing warmth, beauty, and contemporary design together in perfect balance.

Inspired by clean architectural lines and crafted with exceptional attention to detail, our fireplaces are designed to complement today's most thoughtfully designed spaces. Whether creating a welcoming gathering place or a striking focal point, every Sustainable Hearth fireplace is built to deliver lasting beauty, reliable performance, and an exceptional ownership experience.

Built on the design legacy of European Home, Sustainable Hearth continues a tradition of innovation, quality, and personalized service. From dealers and architects to designers and homeowners, we are committed to earning your confidence with products we proudly stand behind and support long after installation.

Flamerite® Fires

Founded in 1999 within the historic city of Lichfield, Flamerite continues a proud family tradition of British designed electric fires. With a rich history, Flamerite has earned multiple awards, both in the UK and internationally. Their unwavering commitment is singular in nature: to manufacture high quality, innovative electric fireplaces in the UK, adhering to the utmost standards and distributing cutting edge technology that sets the benchmark for this industry.

solution electricfires

Solution Electric Fires by Capital Fireplaces was established over 30 years ago to supply high-quality and elegant fireplaces crafted from natural materials. Since then, they have expanded and developed to become one of the leading UK suppliers of a wide range of superior fireplace products.

SUSTAINABLE HEARTH™
STYLE MEETS SUSTAINABILITY

At Sustainable Hearth, we believe an electric fireplace should be more than a source of warmth; it should be an integral part of a beautifully designed space. Our focus is on bringing together exceptional design, innovative technology, and dependable performance to offer electric fireplace solutions for every project.
Building on the design heritage established by European Home, Sustainable Hearth has earned a reputation for thoughtfully selected products, outstanding customer service, and a commitment to quality. In addition to our own line of Sustainable Hearth fireplaces, we proudly represent leading manufacturers from around the world, giving dealers, architects, designers, and homeowners access to a carefully curated collection of today's finest electric fireplaces.

ELEVATING THE ELECTRIC EXPERIENCE

Flamerite Fires, an award winning designer and manufacturer of the patented Glowing Log technology, has created electric fireplaces which ensures a level of realism that surpasses others. With a fusion of innovation and contemporary design, Flamerite is able to transform a living space, creating the ambiance of a wood or gas fire. These fireplaces are constructed with premium materials and expert workmanship for long lasting performance.

SUSTAINABLE HEARTH™

STYLE MEETS SUSTAINABILITY

Sustainable Hearth offers a higher-quality flame effect than typical mid-range models, bringing a new level of realism to the electric fireplace experience. This approach allows customers to enjoy realistic flames at a lower price point. The flame can be adjusted for flame height as well as flame speed so you can achieve the look you want. These models also come with flame color options at the touch of a button.
